# Welcome to our 19th Annual On-Property Ram Sale

Prime lamb sires have been bred at Fairbank since the property was purchased by our family in 1903 and continue to be the major enterprise on the property. We aim to breed structurally superior rams that contain balanced ASBVs with Lambplan being utilised since its inception.

The sale will again be interfaced with auctions plus. Attendance on the day is still encouraged however the online platform does allow purchasing of stock without being present. We aim to provide video footage of each lot that is a true representation of that animal.

This years sale is one of our largest offerings of terminal genetics and will again feature not only our Poll Dorset, White Suffolk and Southdown rams but also our terminal composites (Southdown x Dorset and Charollais x Southdown/Dorset).

- Lambplan taken from 01/09/2023 run
- All rams are vaccinated with 6 in 1. Ensure annual boosters are administered
- Drenched with Triguard - October 2023
- Fairbank is ovine brucellosis accredited free
- OJD MN1V Status and are a 2nd generation approved vaccinated flock being vaccinated against OJD since 2003
- Southdown Stud Breeders Note: Lots 1-34 have been tested for Gaucher and are non carriers. Most other Southdown lots have not been tested.

**All ram LOTS are offered as flock rams, however should a transfer be required a minimum price of \$3000 will apply and nominated at the fall of the hammer.**

We would be happy to personally deliver within mainland Tasmania any rams not taken on the day. We thank you all for your interest in our sheep.

***Chris, Megan, Frank and Cynthia Badcock***

**Lambplan** has been used since its inception at Fairbank and whilst some selection criteria is placed on Lambplan ASBV's it is well known that we will not compromise structure or breed type to gain additional estimated breeding values. Lambplan is a guide to assist you in making decisions based on the genetic merit of each animal but should not replace visual selection. Balanced ASBV's are important for consistency of progeny but most importantly rams should be both fertile and structurally correct.

**Bwt – Birth Weight.** Rams with lower ASBV's for birth weight (BWT) produce lambs with lower birth weight. Both low (lamb survival) and high (lambing difficulties) should be avoided.

**Wwt – Weaning Weight.** Rams with a more positive ASBV for weaning weight (WWT) will, on average, produce lambs that grow quicker to weaning.

**Pwwt – Post weaning weight.** Rams with more positive ASBVs for post weaning weight (PWT) produce lambs that grow quicker and reach target weights in a shorter time.

**Pemd – Post eye muscle depth.** Rams with a more positive ASBV for post weaning eye muscle depth produce lambs that have more muscle, independent of weight, and a higher lean meat yield.

**Pfat – Post fat.** Rams with a more negative ASBV for post weaning fat (PFAT) will produce lambs that are leaner at the same weight.

## LAMBPLAN & UNDERSTANDING ASBVs

**TCP** The TCP Index has been created to assist producers to achieve both gains in their major production traits, such as post-weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

The TCP Index, unlike Carcase Plus, is on a scale that is aligned with other Sheep Genetics' indexes and is represented in economic terms with a unity index reflecting an additional dollar per ewe joined per year. To assist in comparing rams, Sheep Genetics recommends using a percentile band table as reference. The figure below, which is based on the percentile band table, highlights the TCP Index value for significant percentiles for the 2019 drop animals.

TCP has been developed by using extensive research using mainly Poll Dorset and White Suffolk genetics. Therefore we believe this new index is not the most appropriate index for the Southdown and should not be used to compare between breeds. We are actively working with Sheep Genetics on a solution to find the most appropriate Southdown index.

**EQ** - Targets a prime lamb operation where terminal sires are joined to ewes of a merino/maternal breed or cross, and where producers are interested in improving the eating quality of their lambs to a greater degree than is possible with the TCP index. Because the added emphasis is on eating quality, there is less emphasis on growth and carcase traits, although they will still improve.

# SOUTHDOWN EWES

Southdowns have been a successful enterprise at Fairbank since 1922 spanning four generations, with both ram and ewe sales to all states and overseas during this time. This years offering consists of not only outstanding outcross sires but progeny from our our elite home bred sires that have been retained as they were the best of each drop.

This years Southdown offering include progeny of:

- **Shellal 180013** - Champion Adelaide. We pursued this rams journey over a number of years and manage to secure him to stud duties at Fairbank last year. A very balanced ram with great temperament. 19 rams and 4 ewes.
- **Fairbank 190751** - Has bred the house down with many top end rams featured by 751. Long ram out of an exceptional breeding ewe. 16 rams and 4 ewes.
- **Fairbank 200983** - Our keeper ram by Fernhill 160015 (Ch Geelong). A very balanced neat ram with good growth ASBV's. 10 rams and 4 ewes.
- **Allanwood 200118** - Outcross (Johnos/Clear Hills) Semen sire. We saw and liked this ram when exhibited at ASWS in 2021. We used a son over a select group of ewes for the 2023 joining. 6 rams and 3 ewes.
- **Fairbank 201153** - Retained due to his extreme clean points and exceptional hind quarter by Fairbank 180881. 8 rams.

- **Fairbank 190807** - An extremely deep bodied ram with strong sire outlook and bone. Extensive show record to match. Strong NZ influence in pedigree. 5 rams and 2 ewes.
- **Fairbank 170831** - Sire of the Australian Auction record ram in 2020 and grand sire of the 2022 auction record ram. All Australian pedigree. Has been instrumental in our flock. Deep hind quarter, balanced and correct. 5 rams and 1 ewe.
- **Fairbank 170821** - Elite Performer ranked number 1 ram in Australia for TCP and LEQ (Oct 2023). Extremely long and clean faced ram. Small AI program used resulting in 5 elite rams catalogued.
- **Fernhill 140218** - High performance ram used successfully over 2 seasons with a son retained last year. 4 rams and 1 ewes.
- **Fairbank 210998** - Top lamb and used to back up AI ewes by Nedelle 37. Sold to JD Southdowns 2022 sale. 2 rams and 1 ewe.

# TERMINAL COMPOSITES

## CHAROLLAIS X POLL DORSET SOUTHDOWN & SOUTHDOWN X POLL DORSET

## - CHAROLLAIS X POLL DORSET/SOUTHDOWN

The Charollais cross project came about due to having some outstanding ewes coming out of our Southdown x Dorset terminal program. We identified the Charollais had exceptional hind quarters and natural low birth weights. We wanted to back this up with some Lambplan ASBV's, but also add some body length to the Charollais and improve the face colouring. These rams are ideal for specific ewe lamb joinings. Majority of our 2023 offering are out of ewe lambs and not born until Sep/Oct.

## - SOUTHDOWN X POLL DORSET

The breed originally started out in 2014 as an attempt to tighten the gestation length on our Poll Dorsets by picking up with a Southdown after a 4 week joining. We have since then refined this to specifically select ewes to go into this program. Both Poll Dorset and Southdown ewes are used with sires matched accordingly. Rams have been developed to have black feet and open faces and that extra bit of vigour and growth.

# Introducing FAIRBANK ULTRA WHITES

First Tasmanian Ultra White Stud  
Registered Flock Number 24

**Rams and ewes will be on display  
at our On Property Sale  
Thursday 9th November**

Rams available for purchase from  
November onwards.

# WHITE SUFFOLK

Our White Suffolks commenced in 1996 using Fairbank Poll Dorset ewes and the proven South Australian White Suffolk genetics. Since then carefully selected mainland and Tasmanian sires have been utilised to produce structurally correct and well muscled rams suited to a wide range of conditions and locations. Our White Suffolk's are very consistent and express great breed type, structural correctness and muscling

This years White Suffolk offering include progeny of:

- **Farrer 190231** - Used by AI due to his elite breeding values. 231 figures have continued to improve as more data has been collected on his progeny. We used a son extensively in our own program as a lamb. 11 rams.
- **Ashmore 190016** - Selected to use in our AI program due to his strong proven breeding in multiple stud programs. Balanced ASBV's with terrific breed type. Has produced very appealing progeny. 9 rams.
- **Trigger Vale 191124** - Selected for his elite performance and outcross attributes. Used in the Super Whites program. 9 rams.
- **Fairbank 200687** - Low Bwt ram (0.08) by the widely used sire Somerset 67. FB200687 progeny have continued to impress and will be used again next joining. 9 rams.
- **Fairbank 190506** - Low Bwt sire with very good breed type by Ashmore 160516. 7 rams.

- **Fairbank 210529** - Champion Launceston and Hobart with semen sales also made. By Ashmore 160433 he has elite structure and black feet. Progeny are super correct with good breed type. 6 rams.
- **Fairbank 210601 & 210671** - Top performing ram lambs used to back up AI programs by Ashmore 160433 & Langley Heights 160054 respectively. 9 rams between the two.

# POLL DORSET

Our Poll Dorsets were established in 1969 by selecting the top ewes from leading Tasmanian studs. Since then we have carefully selected the best available genetics by either natural mating or A.I as well as our own top rams to produce commercially relevant industry sires.

- **Old Woombi 180425** - A high performance ram with balanced ASBV's used extensively in our AI program. 14 rams.
- **Fairbank 200102** - By Hillcroft Farms 110548. He is a very safe high performance ram. High accuracy eating quality data. 10 rams.
- **Old Woombi 160165** - Low Bwt ram used for the second year. Two sons retained by him also. Very pleased with his continued performance. 9 rams.
- **Ridgehaven 190083** - An outcross ram with exception breed type. Has bred very well with a son to be retained. 7 rams.
- **Fairbank 200183** - By Gooramma Guru. has bred true to type with early maturing and high muscling a feature. 5 rams.
- **Fairbank 210139, 210142 & 210213** - Ram lambs used to back up AI programs. 210213 went on the be retained by Fairbank. First two by Hillcroft Farms 130156 and 213 by OW 160165. 10 rams by these young sires.
- **Fairbank 190299** - Proven sire only used as a late back up ram so just the 1 ram this year following on from his 7 rams the previous year.
